Cardiology: An Illustrated Textbook Barry London, Mark Anderson, Richard E. Kerber, Kanu Chatterjee
Cardiology: An Illustrated Textbook is the latest edition of this comprehensive two volume textbook, including revised chapters with the latest advances in the field of cardiology. This edition is edited by professors from the Carver College of Medicine, Iowa, and the University of California, San Francisco. This book is comprised of 120 chapters across fifteen sections. The first four sections cover basic cardiology, cardiovascular pharmacology, diagnosis, and electrophysiology. Subsequent sections cover groups of diseases and conditions, including vascular diseases, heart failure, myocardial and pericardial diseases, coronary heart diseases, valvular heart diseases, congenital heart disease, and secondary disorders of the heart. Each section incorporates new advances and step-by-step diagnosis and treatment. The closing sections of the book cover current issues in cardiology, preventive strategies for various cardiac diseases, and a final section on 'evolving concepts', bringing this edition firmly up to date. Cardiology: An Illustrated Textbook is enhanced by 1600 full colour images and illustrations, many new to this edition, and an accompanying DVD. Key Points * Latest edition of comprehensive two volume textbook * Previous edition published 2013 (9789350252758) *1600 full colour images and illustrations

From reader reviews:

Jesus Puga:

The reason? Because this Cardiology: An Illustrated Textbook is an unordinary book that the inside of the publication waiting for you to snap that but latter it will zap you with the secret that inside. Reading this book adjacent to it was fantastic author who have write the book in such incredible way makes the content interior easier to understand, entertaining way but still convey the meaning totally. So , it is good for you for not hesitating having this anymore or you going to regret it. This book will give you a lot of advantages than the other book possess such as help improving your skill and your critical thinking approach. So , still want to hesitate having that book? If I were you I will go to the e-book store hurriedly.

Joseph Kidwell:

Reading a book for being new life style in this calendar year; every people loves to read a book. When you study a book you can get a wide range of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself read a fiction books, these us novel, comics, in addition to soon. The Cardiology: An Illustrated Textbook offer you a new experience in studying a book.

Bobbie Burke:

It is possible to spend your free time to study this book this reserve. This Cardiology: An Illustrated Textbook is simple to deliver you can read it in the recreation area, in the beach, train and also soon. If you did not include much space to bring the printed book, you can buy typically the e-book. It is make you much easier to read it. You can save typically the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Christopher Scoville:

That guide can make you to feel relax. This kind of book Cardiology: An Illustrated Textbook was bright colored and of course has pictures on the website. As we know that book Cardiology: An Illustrated Textbook has many kinds or variety. Start from kids until young adults. For example Naruto or Private investigator Conan you can read and believe you are the character on there. Therefore not at all of book tend to be make you bored, any it makes you feel happy, fun and chill out. Try to choose the best book for you and try to like reading that.
