The Basic Makeup Manual to Look and Feel Your Best!!

Through this book, you will gain an insight into the world of makeup artistry, and learn how to successfully apply basic facial makeup elements.

Makeup artistry is not just a field limited to the professionals. As individuals, we all use a little bit of makeup to enhance our best features and add color to our faces. What makes certain makeup applications stand out from others, however, is the skill with which they are applied – some makeup techniques exude a soft, dewy look, while others give the face a dramatic and bold look. It may seem like wizardry to achieve some of the looks crafted by makeup experts and talented beauty bloggers, but Makeup artistry, in fact, is easier and enjoyable than you would imagine!

The chapters in this book will introduce you to the professional side of makeup artistry, and guide you towards finding employment in this field. You will also gain a peek into the world of photo shoots and their relationship with makeup artists. Finally, you will learn how to apply such basic makeup elements as foundations, concealer, highlights and contours in a professional way. Are you ready to set foot into the vibrant world of Makeup Artistry? Let's begin right away!?
