No longer do students have to try to memorize long boring vocabulary lists by using archaic rote memory techniques. Vocabulary Cartoons makes learning vocabulary fun and easy by using brain-friendly memory aids in the form of visual and rhyming mnemonics. A mnemonic is a device used to improve memory. It helps you remember something by associating it with something you already know. Mnemonic devices have been used in many forms including keywords, acronyms, rhymes, poems, songs and visual aids. For example, you may remember this mnemonic from grade school, "Columbus sailed the ocean blue in fourteen hundred ninety-two." This helps you remember when Christopher Columbus discovered America.
