Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology)

Broadband Satellite Communication Systems and the Challenges of Mobility is an essential reference for both academic and professional researchers in the field of telecommunications, computer networking and wireless networks.

Recently the request of multimedia services has been rapidly increasing and satellite networks appear to be attractive for a fast service deployment and for extending the typical service area of terrestrial systems. In comparison with traditional wide area networks, a characteristic of satellite communication systems is their ability in broadcasting and multicasting multimedia information flows anywhere over the satellite coverage. The papers presented in this volume highlight key areas such as Satellite Network Architectures, Services and Applications; Mobile Satellite Systems and Services; and Hybrid Satellite and Terrestrial Networks.

Mobility will inevitably be one of the main characteristics of future networks, terminals and applications and, thus, extending and integrating fixed network protocols and services to mobile systems represents one of the main issues of present networking. The secondary focus of this volume is on challenges of mobility, that is, on technologies, protocols and services for the support of seamless and nomadic user access to new classes of applications in person-to-person, device-to-device and device-to-person environments. The book comprises recent results of research and development in the following areas; Seamless mobility; Mobile ad hoc and sensor networks; Analysis, simulation and measurements of mobile and wireless systems; Integration and inter-working of wired and wireless networks; QoS in mobile and wireless networks; Future trends and issues concerning mobility.

This state -of-the-art volume contains a collection of papers from two of the workshops of the 18th IFIP World Computer Congress, held August 22-27, 2004, in Toulouse, France: the Workshop on Broadband Satellite Communication Systems, and the Workshop on the Challenges of Mobility.

From reader reviews:

Tasha Page:

What do you consider book? It is just for students since they're still students or the item for all people in the world, the actual best subject for that? Merely you can be answered for that question above. Every person has diverse personality and hobby per other. Don't to be pressured someone or something that they don't desire do that. You must know how great and also important the book Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology). All type of book can you see on many solutions. You can look for the internet sources or other social media.

Elizabeth Ashton:

Here thing why this specific Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology) are different and reputable to be yours. First of all studying a book is good but it really depends in the content of computer which is the content is as scrumptious as food or not. Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology) giving you information deeper including different ways, you can find any book out there but there is no reserve that similar with Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology). It gives you thrill examining journey, its open up your eyes about the thing in which happened in the world which is probably can be happened around you. You can bring everywhere like in park your car, café, or even in your way home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology) in e-book can be your option.

Solomon Steward:

Would you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Aim to pick one book that you find out the inside because don't determine book by its handle may doesn't work this is difficult job because you are frightened that the inside maybe not while fantastic as in the outside search likes. Maybe you answer might be Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology) why because the amazing cover that make you consider about the content will not disappoint an individual. The inside or content is usually fantastic as the outside or perhaps cover. Your reading 6th sense will directly direct you to pick up this book.

Joy Carlson:

Many people spending their time frame by playing outside having friends, fun activity using family or just watching TV the whole day. You can have new activity to invest your whole day by reading through a book. Ugh, ya think reading a book can definitely hard because you have to take the book everywhere? It okay you can have the e-book, getting everywhere you want in your Smart phone. Like Broadband Satellite Communication Systems and the Challenges of Mobility: IFIP TC6 Workshops on Broadband Satellite Communication Systems and ... in Information and Communication Technology) which is finding the e-book version. So , why not try out this book? Let's see.
