Formula Handbook for Environmental Engineers and Scientists Gabriel Bitton

The Formula Handbook brings together in a single volume the most popular and useful formulas covering biological/biochemical processes in natural and engineered systems--saving hours of valuable research time. Compiled from select journals, review articles, and books the Formula Handook is an indispensable one-step reference for today's busy environmental engineer or scientist. It is arranged alphabetically, making information easy to find. In addition to the formulas themselves, entries include: an introduction to the topic; definition of terms; numerical values; tables and figures; references.
