**The Corporate Planet** Joshua Karliner

**The Corporate Planet** brilliantly exposes the elaborate efforts of the giant corporations to "greenwash" themselves, and it demonstrates how they are using free trade agreements and World Bank loans to build a world order where they are accountable only to themselves. From Tokyo, where Mitsubishi processes rain forest logs from around the world, to a polluting Chevron oil refinery in California, to India, China, and Brazil, where global chemical companies are setting up shop, Joshua Karliner takes us on a stunning world tour. Here is a fascinating account of corporate greed and the unexpected powers of local activist to combat.

"The intensity and importance of **The Corporate Planet** comes from the passion and the skill with which it opens us to a vision of how dangerous to the future of our globe is global capitalism itself."--Norman Mailer
