NOTE: While reading the series in order is recommended, it is not necessary. Each story is a stand alone title featuring new primary characters with limited overlapping secondary characters.

Doctor Reagan Rosner loves her fast-paced life of practicing medicine in New York City's busiest trauma center. Kind and confident, she's taking her profession by storm--until a young girl's accidental death leaves her shaken to her core. With her life a mess and her future uncertain, Reagan accepts a position as Head Physician for The Appalachia Project, an outreach program working with some of America's poorest citizens.

Shane Harper, Ethan Cooke Security's newest team member, has been assigned a three-month stint deep in the mountains of Eastern Kentucky, and he's not too happy about it. Guarding a pill safe in the middle of nowhere is boring as hell, but when he gets a look at his new roommate, the gorgeous Doctor Rosner, things start looking up.

Shane and Reagan encounter more than a few mishaps as they struggle to gain the trust of a reluctant community. They're just starting to make headway when a man's routine checkup exposes troubling secrets the town will do anything to keep hidden--even if that means murder.
