Two years ago, FBI Agent Gabi Longoria thwarted a conspiracy from taking over the world and filling it with meta-humans—genetically engineered human beings who are better-looking, healthier, more athletic and smarter than regular people.

When America finds out that not only has the government kept it a secret how many metas there really are in the world, but that they're also prone to violence, panic sets in. Movements form across the country with the goal of eliminating all metas. Tensions between metas and regular humans escalate, and a civil war seems inevitable. Gabi is caught in the middle, because her fiancé and fellow FBI Agent Ian Armory is a meta himself--and he decides to take the metas' side.

NOTE: CROSSFIRE is a stand-alone sci-fi thriller and is the third book in the Meta-Human Series.
