Note: Formerly titled "The Top of Hell's Food Chain"

A 4,000 year old tomb that's said to hold great riches has been uncovered by the shifting desert sands; it looks as new as the day it was built, and holds horrible death to all that enter.

In 1922, the tomb is entered by a team of heavily armed grave robbers. One man escapes. He fills his notebook with his story and uses all of his money to rent a safety deposit box in an Algerian bank; the rent is paid until 1972. Then he hangs himself. 20 years later, the German army finds the book and sends a strong force to investigate. When they don't report back, a soldier takes the book and is told to fly over the site. His airplane is shot down and the book is recovered by men building a pipeline. A small team is sent in. The men who help the team are terrorists who can't wait to kill them, until they discover the end of all life is about to invade earth.
