A Beautiful Mind: The Life of Mathematical Genius and Nobel Laureate John Nash Sylvia Nasar

"How could you, a mathematician, believe that extraterrestrials were sending you messages?" the visitor from Harvard asked the West Virginian with the movie-star looks and Olympian manner.

"Because the ideas I had about supernatural beings came to me the same way my mathematical ideas did," came the answer. "So I took them seriously."

Thus begins the true story of John Nash, the mathematical genius who was a legend by age 30, when he slipped into madness. Thanks to the selflessness of a beautiful woman and the loyalty of the mathematics community, he emerged after decades of ghostlike existence to win a Nobel Prize and world acclaim.

The inspiration for a motion picture starring Russell Crowe, Sylvia Nasar's award-winning biography is a drama about the mystery of the human mind, triumph over incredible adversity, and the healing power of love.
