Shakespeare and Marriage

Alissa Carter

Shakespeare and Marriage Alissa Carter

An in-depth look at marriage in Shakespeare's comedies, tragedies and histories, as understood within the context of Early Modern England. This work discusses the importance of marital union in Shakespeare's day, and tries to pinpoint three different types of marriage as it relates to the text.

This work debates the feminist assumptions of his most popular plays, and looks at the nature of romance, passion and politics within 16th Century England.

The texts used to discuss this theme are: Richard III, Henry V, Much Ado About Nothing, Taming of the Shrew, Romeo and Juliet, and Othello.

What was the average marriage age in the 1500's? Were all women submissive housewives? Was every marriage arranged during infancy? Did Shakespeare value his own marriage to Anne Hathaway?

The book takes a brief look at the poetry of Shakespeare's language and how this relates to the Bard's understanding of love, family and women. It attempts to upturn the reason behinds Shakespeare's strong female characters, and how this reflects on the culture and society of the time.
