Rachel Carson: Witness for Nature

Linda Lear

Rachel Carson: Witness for Nature Linda Lear

Rachel Carson's *Silent Spring*, published in 1962, did more than any other single publication to alert the world to the hazards of environmental poisoning and to inspire a powerful social movement that would alter the course of American history. This definitive, sweeping biography shows the origins of Carson's fierce dedication to natural science--and tells the dramatic story of how Carson, already a famous nature writer, became a brilliant if reluctant reformer. Drawing on unprecedented access to sources and interviews, Lear masterfully explores the roots of Carson's powerful connection to the natural world, crafting a " fine portrait of the environmentalist as a human being" (Smithsonian).
