Animal Kingdom: Stereoscopic Images Of Natural History Jim Naughten

Drawn from the archives of some of the world's finest museums, this collection of historic specimens, photographed for stereoscopic viewing, brings the natural world to life in thrilling and beautiful ways. Since collecting fossils as a child, photographer Jim Naughten has always been fascinated by the natural world. Now a renowned photographer, he has started to experiment with stereography and has turned to his boyhood interest, gaining access to some of the world's most prestigious natural history museums. This gorgeously produced book contains 50 images of marine life, reptiles, mammals, birds, and primates photographed expressly for viewing through a stereoscope, which is included with the book. Stereoscopy was invented in 1839 to study binocular vision. Having two eyes allows humans to determine distance and depth, and stereoscopy shows a left- and right-eye view from a slightly different angle, as we see things in day-to-day life. Looking through the viewer, readers will see the specimens as three-dimensional objects. As the images jump off the page, their incredible details become apparent?delicate bat wings, the spiraling skeleton of a python, the almost mythic form of a leafy sea dragon. Texts on the work, the history of stereoscopy, and the specimens themselves provide rich background to the project and Naughten's achievement in bringing to life a world that seamlessly melds the past and present.

From reader reviews:

Curtis Russell:

As people who live in the modest era should be revise about what going on or data even knowledge to make these keep up with the era which can be always change and progress. Some of you maybe may update themselves by examining books. It is a good choice in your case but the problems coming to an individual is you don't know what one you should start with. This Animal Kingdom: Stereoscopic Images Of Natural History is our recommendation to make you keep up with the world. Why, because book serves what you want and wish in this era.

Michael Alvarado:

Reading a book can be one of a lot of action that everyone in the world adores. Do you like reading book so. There are a lot of reasons why people like it. First reading a book will give you a lot of new facts. When you read a publication you will get new information since book is one of a number of ways to share the information as well as their idea. Second, looking at a book will make you more imaginative. When you reading through a book especially hype book the author will bring one to imagine the story how the characters do it anything. Third, you are able to share your knowledge to some others. When you read this Animal Kingdom: Stereoscopic Images Of Natural History, you could tells your family, friends along with soon about yours publication. Your knowledge can inspire others, make them reading a publication.

Connie Cornish:

Playing with family in a very park, coming to see the ocean world or hanging out with good friends is thing that usually you may have done when you have spare time, after that why you don't try matter that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Animal Kingdom: Stereoscopic Images Of Natural History, you are able to enjoy both. It is good combination right, you still wish to miss it? What kind of hangout type is it? Oh occur its mind hangout men. What? Still don't understand it, oh come on its named reading friends.

Johnny Harper:

Many people spending their time by playing outside together with friends, fun activity having family or just watching TV all day long. You can have new activity to pay your whole day by looking at a book. Ugh, you think reading a book can actually hard because you have to accept the book everywhere? It alright you can have the e-book, getting everywhere you want in your Smart phone. Like Animal Kingdom: Stereoscopic Images Of Natural History which is finding the e-book version. So , try out this book? Let's see.
