Essentials of Clinical Psychopharmacology

This new edition of *Essentials of Clinical Psychopharmacology* is a synopsis and update of the most clinically relevant material from *The American Psychiatric Publishing Textbook of Psychopharmacology*, Third Edition. *The Essentials* focuses on the aspects of psychopharmacology directly related to clinical care and will appeal to psychiatry residents, primary care physicians, and others interested in a concise tutorial on clinical psychopharmacology.

The book is organized around two major sections of the *Textbook*. The first section, Classes of Psychiatric Treatments, presents information by classes of drugs and greatly expands on the first edition of the textbook by focusing whole chapters on single drugs in the antidepressant, antipsychotic, and bipolar categories. For each drug within a class, data are reviewed on preclinical and clinical pharmacology, pharmacokinetics, indications, dosages, side effects and toxicology, and drug-drug interactions. Included are data on currently available drugs in the United States and medications that will almost certainly become available in the near future.

The second section, Psychopharmacological Treatment, provides specific information about drug selection and prescription and reviews state-of-the-art therapeutic approaches to the treatment of patients with major psychiatric disorders. Also reviewed are pharmacotherapeutic approaches for special populations, such as children and adolescents, medically ill patients, and the elderly. Chapters are devoted to pharmacotherapy in special situations, such as during pregnancy and lactation and in psychiatric emergencies. This section provides the reader with specific information about drug selection and prescribing practices.

In addition to the clinical focus of the *Essentials*, the authors have provided new information based on more recent literature available since publication of the *Textbook*. Included are updates on the effectiveness and availability of specific drugs and therapeutic approaches.
