## **Research and Application of Concept Algebra Volume 2** Shilong Wu

A serial research and application of Concept Algebra has been publishing. The research results of concept algebra will be appeared at this serial; the found history of concept algebra also will be published at this serial. The Volume two of this serial includes that the research results based on Wu algebra (the primary stage of concept algebra) which are “Classical Logic Laws Extending Using Logic Calculator” and “A Revolution of Logic Reasoning--A Method of Law Free Reasoning”. There are two articles (“Graphic of set theorems 2” and “Graphic of logic laws 2”) to prove the set is as the same as concept, because a lot of set theorems can be gotten from relationship between sets using logic thinking automaton, that automaton also can get similar results from the relationship between concepts. The “Classical Logic Laws Extending Using Logic Calculator” shows that the classical logic laws (including Lukasiewicz’s four laws, Mon, Cat, CM and Or) are expanded using the logic calculator. A lot of new logic laws had been produced. The article “A Revolution of Logic Reasoning--A Method of Law Free Reasoning” explains the main contribution of Law Free Reasoning is unknown variables are introduced to the procedure of logical reasoning. Any logic relations can be reasoned, that needs not any midterm.

The part two is Wu+ algebra that was developed based on Wu algebra. There is only one constant on Wu+ algebra. This algebra also can be called “Special Wu algebra”. Extend this algebra the concept algebra is generated
