Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics)

This is an exhaustive review of our theoretical and observational knowledge of gravitational lensing 10 years after the discovery of the first lensed quasar, Q0957+561. Gravitational optics, optical, infrared, and radio observations of quasar-lens candidates, microlensing, arcs in clusters of galaxies, and radio rings are presented. In particular, the continuing survey of quasar-lens candidates, the new measurement of the time delay in 0957+561, the suspended microlensing effect through the galaxy 2237+030, as well as the discovery of new arcs and the measurement of new redshifts for two of them are presented. Numerous papers on the modelling of arcs and rings show how it should be possible to probe dark matter with these unexpected gravitational telescopes. Finally, tables summarize all the lens candidates we know today.

From reader reviews:

Barbara Butler:

The book Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics) make one feel enjoy for your spare time. You should use to make your capable much more increase. Book can to become your best friend when you getting pressure or having big problem with the subject. If you can make examining a book Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics) for being your habit, you can get much more advantages, like add your own personal capable, increase your knowledge about a few or all subjects. You could know everything if you like wide open and read a publication Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics). Kinds of book are several. It means that, science guide or encyclopedia or other individuals. So , how do you think about this reserve?

Juan Carrillo:

What do you think of book? It is just for students because they are still students or it for all people in the world, the actual best subject for that? Simply you can be answered for that issue above. Every person has distinct personality and hobby for each other. Don't to be pushed someone or something that they don't would like do that. You must know how great along with important the book Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics). All type of book would you see on many methods. You can look for the internet sources or other social media.

Bradley Harshbarger:

This Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics) usually are reliable for you who want to be considered a successful person, why. The reason of this Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics) can be one of many great books you must have is usually giving you more than just simple examining food but feed you actually with information that maybe will shock your earlier knowledge. This book is usually handy, you can bring it everywhere and whenever your conditions in e-book and printed kinds. Beside that this Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics) giving you an enormous of experience for instance rich vocabulary, giving you demo of critical thinking that we understand it useful in your day exercise. So , let's have it and enjoy reading.

Robert Fox:

Is it you actually who having spare time then spend it whole day through watching television programs or just lying on the bed? Do you need something new? This Gravitational Lensing: Proceedings of a Workshop Held in Toulouse, France September 13-15, 1989 (Lecture Notes in Physics) can be the answer, oh how

comes? A fresh book you know. You are and so out of date, spending your time by reading in this new era is common not a geek activity. So what these guides have than the others?
