E-literature for Children: Enhancing Digital Literacy Learning Len Unsworth

As ICT continues to grow as a key resource in the classroom, this book helps students and teachers to get the best out of e-literature, with practical ideas for work schemes for children at all levels.

Len Unsworth draws together functional analyses of language and images and applies them to real-life classroom learning environments, developing pupils' understanding of 'text'. The main themes include:

- What kinds of literary narratives can be accessed electronically?
- How can language, pictures, sound and hypertext be analysed to highlight the story?
- How can digital technology enhance literary experiences through web-based 'book talk' and interaction with publishers' websites?
- How do computer games influence the reader/ player role in relation to how we understand stories?
