Physics with Multiply Charged Ions (Nato Science Series B:)

Physics with Multiply Charged Ions (Nato Science Series B:)

Multiply charged ions have always been in the focus of atomic physics, astrophysics, plasma physics, and theoretical physics. Within the last few years, strong progress has been achieved in the development of ion sources, ion storage rings, ion traps, and methods to cool ions. As a consequence, nowadays, experiments with ensembles of multiply charged ions of brilliant quality are performed in many laboratories. The broad spectrum of the experiments demonstrates that these ions are an extremely versatile tool for investigations in pure and applied physics. It was the aim of this ASI to bring together scientists working in different fields of research with multiply charged ions in order to get an overview of the state of the art, to sound out possibilities for fruitful cooperations, and to discuss perspectives for the future. Accordingly, the programme of the ASI reached from established areas like QED calculations, weak interactions, x-ray astronomy, x-ray lasers, multi photon excitation, heavy-ion induced fusion, and ion-surface interactions up to the very recently opened areas like bound-beta decay, laser and x-ray spectroscopy, and spectrometry of ions in rings and traps, and the interaction of highly charged ions with biological cells. Impressive progress in nearly all of the fields could be reported during the meeting which is documented by the contributions to this volume. The theoretical understanding of QED and correlation effects in few-electron heavy ions is rapidly developing.

From reader reviews:

Terrance Hutchins:

The particular book Physics with Multiply Charged Ions (Nato Science Series B:) will bring you to definitely the new experience of reading a book. The author style to elucidate the idea is very unique. If you try to find new book to see, this book very appropriate to you. The book Physics with Multiply Charged Ions (Nato Science Series B:) is much recommended to you to read. You can also get the e-book in the official web site, so you can quicker to read the book.

Clare Lucas:

The e-book with title Physics with Multiply Charged Ions (Nato Science Series B:) contains a lot of information that you can find out it. You can get a lot of advantage after read this book. This kind of book exist new knowledge the information that exist in this guide represented the condition of the world today. That is important to you to understand how the improvement of the world. This kind of book will bring you inside new era of the glowbal growth. You can read the e-book in your smart phone, so you can read that anywhere you want.

Sharon Hafer:

Typically the book Physics with Multiply Charged Ions (Nato Science Series B:) has a lot details on it. So when you read this book you can get a lot of benefit. The book was published by the very famous author. Tom makes some research prior to write this book. This specific book very easy to read you can get the point easily after scanning this book.

Carolyn Berndt:

You can spend your free time to learn this book this reserve. This Physics with Multiply Charged Ions (Nato Science Series B:) is simple bringing you can read it in the area, in the beach, train as well as soon. If you did not have much space to bring the printed book, you can buy the e-book. It is make you better to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.
