The Keepers: Part II: Tribulation Rick Friar

Futurist writer Richard Friar once again dazzles readers with big battles and saucy science in *The Keepers: Part II: Tribulation*. Friar skillfully blends history and human motivation with his larger-than-life science fiction fare. In *Tribulation*, the year is 2040 and the Allies are up and running at their refuge on Mars. Geiseric, leader of the Apex Empire, has managed to coalesce the resources necessary to spark an arms race and war the likes of which humanity has never seen. In their fight, the Allies encounter an unforeseen and bizarre enemy, ending in a signature plot reversal that will leave readers stunned. The war technology is once again lavishly illustrated in a high sci-fi style that will appeal to the science fiction fan in everyone.
