To turn this historic opportunity into long-term political realignment, Progressives must forcefully reassert our commitment to fundamental progressive values and to our vision for the future. Some people think that in order to win, Democrats need to move to the political center by adopting conservative values and splitting the difference between progressive and conservatives positions. History shows they are wrong. To win the next election and to win in the long term, we need to redefine the political center. In this book one of America's most experienced political strategists and organizers lays out a broad strategy for progressive victory and describes the tactics needed to win real-world political battles one at a time. The book analyzes: The self-interests of voters; Our targets for political communication; The principles of political messaging; The secrets of winning electoral and issue campaigns; What we mean by progressive values; How to describe a compelling progressive vision for the future.
