**Mathematics and Scientific Representation (Oxford Studies in the Philosophy of Science)** Christopher Pincock

Mathematics plays a central role in much of contemporary science, but philosophers have struggled to understand what this role is or how significant it might be for mathematics and science. In this book Christopher Pincock tackles this perennial question in a new way by asking how mathematics contributes to the success of our best scientific representations. In the first part of the book this question is posed and sharpened using a proposal for how we can determine the content of a scientific representation. Several different sorts of contributions from mathematics are then articulated. Pincock argues that each contribution can be understood as broadly epistemic, so that what mathematics ultimately contributes to science is best connected with our scientific knowledge.

In the second part of the book, Pincock critically evaluates alternative approaches to the role of mathematics in science. These include the potential benefits for scientific discovery and scientific explanation. A major focus of this part of the book is the indispensability argument for mathematical platonism. Using the results of part one, Pincock argues that this argument can at best support a weak form of realism about the truth-value of the statements of mathematics. The book concludes with a chapter on pure mathematics and the remaining options for making sense of its interpretation and epistemology.

Thoroughly grounded in case studies drawn from scientific practice, this book aims to bring together current debates in both the philosophy of mathematics and the philosophy of science and to demonstrate the philosophical importance of applications of mathematics.

### **From reader reviews:**

#### **Lori Barnes:**

Why don't make it to become your habit? Right now, try to ready your time to do the important action, like looking for your favorite guide and reading a e-book. Beside you can solve your condition; you can add your knowledge by the e-book entitled Mathematics and Scientific Representation (Oxford Studies in the Philosophy of Science). Try to make the book Mathematics and Scientific Representation (Oxford Studies in the Philosophy of Science) as your good friend. It means that it can to get your friend when you sense alone and beside that of course make you smarter than previously. Yeah, it is very fortunated for you. The book makes you a lot more confidence because you can know everything by the book. So , let us make new experience in addition to knowledge with this book.

#### **Jessica Hurst:**

The publication with title Mathematics and Scientific Representation (Oxford Studies in the Philosophy of Science) contains a lot of information that you can learn it. You can get a lot of benefit after read this book. That book exist new knowledge the information that exist in this reserve represented the condition of the world today. That is important to yo7u to learn how the improvement of the world. This specific book will bring you throughout new era of the the positive effect. You can read the e-book in your smart phone, so you can read that anywhere you want.

#### **Darlene Heckart:**

A lot of people always spent their very own free time to vacation or even go to the outside with them friends and family or their friend. Were you aware? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long. If you would like try to find a new activity honestly, that is look different you can read a book. It is really fun to suit your needs. If you enjoy the book that you just read you can spent the whole day to reading a e-book. The book Mathematics and Scientific Representation (Oxford Studies in the Philosophy of Science) it is rather good to read. There are a lot of those who recommended this book. We were holding enjoying reading this book. In case you did not have enough space to deliver this book you can buy the e-book. You can m0ore simply to read this book from your smart phone. The price is not too expensive but this book features high quality.

#### **Jennifer Meeks:**

Are you kind of occupied person, only have 10 as well as 15 minute in your time to upgrading your mind talent or thinking skill perhaps analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your small amount of time to read it because this time you only find book that need more time to be read. Mathematics and Scientific Representation (Oxford Studies in the Philosophy of Science) can be your answer mainly because it can be read by an individual who have those short free time problems.
