The AutoCAD 2002 Tutor for Engineering Graphics Alan J. Kalameja, Delmar/Thomson Learning
Produce professional-quality engineering drawings while taking advantage of the newest features and functions of the latest software release! The AutoCAD 2002 Tutor for Engineering Graphics is a "must" for students and professionals alike. Written by a successful AutoCAD Training Center (ATC) Manager and long-time member of the AutoCAD Exam Board, every chapter of this results-driven primer features a unique blend of command-specific exercises, step-by-step tutorials, and realistic drawing problems. Organized for effective teaching and learning, the first seven chapters lead readers through AutoCAD basics, from what it takes to begin constructing simple drawings through modification of object properties once they are placed on screen. The next section of the book continues to build upon AutoCAD fundamentals while introducing the art of producing engineering drawings, including: orthographic views, drawing layout in the paper space environment, dimensioning, production of section views, and more! Advanced topics such as DesignCenter, use of external reference and image files, and generation of orthographic views from a 3D model are also featured. Productivity is enhanced as readers learn how to use AutoCAD 2002 to respond efficiently and effectively to all types of engineering drawing and design challenges.

From reader reviews:

Harold Martinez:

Do you considered one of people who can't read satisfying if the sentence chained inside straightway, hold on guys this specific aren't like that. This The AutoCAD 2002 Tutor for Engineering Graphics book is readable by simply you who hate those perfect word style. You will find the facts here are arrange for enjoyable reading experience without leaving actually decrease the knowledge that want to deliver to you. The writer regarding The AutoCAD 2002 Tutor for Engineering Graphics content conveys the idea easily to understand by lots of people. The printed and e-book are not different in the written content but it just different by means of it. So , do you nonetheless thinking The AutoCAD 2002 Tutor for Engineering Graphics is not loveable to be your top collection reading book?

Edward Carter:

Reading can called imagination hangout, why? Because if you find yourself reading a book particularly book entitled The AutoCAD 2002 Tutor for Engineering Graphics your mind will drift away trough every dimension, wandering in most aspect that maybe mysterious for but surely can become your mind friends. Imaging each and every word written in a reserve then become one form conclusion and explanation that will maybe you never get before. The The AutoCAD 2002 Tutor for Engineering Graphics giving you one more experience more than blown away the mind but also giving you useful details for your better life in this era. So now let us show you the relaxing pattern is your body and mind are going to be pleased when you are finished looking at it, like winning a game. Do you want to try this extraordinary investing spare time activity?

Mary Patterson:

You could spend your free time you just read this book this reserve. This The AutoCAD 2002 Tutor for Engineering Graphics is simple to deliver you can read it in the park your car, in the beach, train as well as soon. If you did not have got much space to bring typically the printed book, you can buy often the e-book. It is make you better to read it. You can save the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Melinda Walton:

As a college student exactly feel bored for you to reading. If their teacher inquired them to go to the library or even make summary for some guide, they are complained. Just tiny students that has reading's internal or real their hobby. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that looking at is not important, boring and can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this The AutoCAD 2002 Tutor for Engineering Graphics can make you feel

more interested to read.
